Creativity in Columbia County

## Who We Are...

The Artists' Guild of Columbia County is a fast growing group of professional and amateur artists and patrons of the visual arts. Our artist members work in a variety of media including acrylic, ceramics, charcoal, collage, fiber arts, graphics, jewelry, metal art, oil, pastel, pen & ink, photography, pottery and watercolor. We have joined together to create an interest in the visual arts, to educate, and to encourage each other's work. The Guild provides opportunities for artists to exchange creative ideas and business information and offers projects of interest to artists and those interested in the arts.

## A Little History...

The Guild was established in 2004, and was initially launched by Columbia County Arts. In its first two years, the Guild has hosted *ART IN THE BARN* and *ART AFTER DARK*, scheduled exhibitions at various public venues and provided educational opportunities for our members. The Guild has also established a scholarship fund and has awarded \$1000 in scholarship money to area high school graduates.

Future projects include art workshops, studio tours, creating art on location, critique meetings, and participation in other area events.

The Guild meets monthly, alternating between second Tuesdays and Saturdays at the Columbia County Library. Tuesday meetings are held at 6:30 pm and Saturdays at 10 am. New members are welcome.
